

Resuming Elective Hip and Knee Replacement in the Setting  
of the SARS-CoV-2 Pandemic: A consensus among hip and  
knee surgeons promoted by The **European Hip Society** and  
**European Knee Associates**

**[Click here to participate in our EHS/ EKA survey!](#)**

We would like to ask you to kindly take approximately 15 minutes of your time and complete an online survey regarding resuming elective hip and knee replacement in the setting of the SARS-CoV-2 pandemic.

At the end of this survey every participant will have the possibility to add a comment to this questionnaire to give us some valuable suggestions and to help us for future projects.

**Please share with us your opinion in this EHS and EKA  
collaboration.**

**Your answers will allow us to publish the recommendations  
and to better meet your expectation as EHS / EKA members**

*Nanne Kort  
on behalf of the Resuming Elective Hip  
and Knee Replacement in the Setting of  
the SARS-CoV-2 Pandemic core team*
